Flower & Patio 'Garden Cam' follows installation of gardens day-by-day

INDIANAPOLIS – Ever watched as a big, empty barn-of-a-building transitions into a garden oasis?

You'll have your chance this week, thanks to Garden Cam.

Area landscape professionals and their crews are hard at work, transforming (in just 10 days) the Indiana State Fairgrounds' West Pavilion from 177,000 square feet of empty space into the home of nearly 30 breathtakingly beautiful showcase gardens – all for the 51st annual Indiana Flower & Patio Show March 14-22.

Gardening devotees or simply curious spectators can chart their progress via the show's website: www.indianaflowerandpatioshow.com. Garden Cam is capturing the day-by-day changes as the gardens with all their spectacular features take shape. Click on the website's "Show Gardens" menu option to watch the show develop right before your eyes!

The Indiana Flower & Patio Show – since 1958, the original garden show - will be presented for the 51st consecutive year March 14-22 at the Indiana State Fairgrounds' West Pavilion. For all the details about this year's finer outdoor living exhibition, including information about a variety of admission discounts, log on to www.indianaflowerandpatioshow.com. The Indiana Flower & Patio Show is presented by locally owned & operated HSI Show Productions, Inc.
